

**Psyomics are looking for 10 participants for our Focus Group to be involved in the development of our new Mental Health Digital Diagnostic Tool.**

Do you have lived experience (either with or without an official diagnosis) of the following mental health challenges? **Generalised Anxiety Disorder, Depression, Obsessive Compulsive Disorder, Panic Disorder, Insomnia** and **co-existing symptoms**, e.g. **Anxiety** and **Panic Disorder**.

*Our commitment to inclusion means that we welcome all participants, irrespective of race, ethnicity, sexual orientation, socio-economic status, gender and physical abilities. We believe strongly in incorporating the perspective and experience of Focus Groups, before and during the development process.*

'It took 20 years to diagnose my bipolar disorder. I felt I had something to contribute when I joined the user group, especially as a sounding board when the project was being developed.' – A Focus Group member's experience

**Participant Role:**

- Committed to attending the sessions and will actively provide feedback on our product design and usability.
- Good communication skills, including being responsive to emails.
- Available for approximately four, two hour in-person sessions throughout the year, as well as providing some document review feedback via email.

**Our commitment to you:**

- You will be reimbursed for your time plus expenses with a signed contract in place. This can be in the form of a voucher if preferred.
- You will be a valued and respected member of the team.
- There will be two to three weeks' notice given for the first session, we will do our best to find a time and date that is suitable for everyone.
- Refreshments will be provided.

**Location:** Cambridge Science Park, Milton Road, Cambridge (free parking available).

If you would like to participate in our new Focus Group, please contact us via email by 11<sup>th</sup> February to register your interest and for more details.

**Contact:** Clare Waterer (PPI coordinator and Research Assistant).
