

Involvement Activity Request Form

Name and contact details of researcher (including job title, institution and email address)

Dr Sheri Oduola
Lecturer in Mental Health Nursing
University of East Anglia
Norwich
NR4 7JT
s.oduola@uea.ac.uk

Project title

Long-term outcomes of psychotic disorders in rural and urban populations.

Plain English summary of the study (max 250 words, please include any suitable links to online information about the research)

Please see attached- lay summary

Purpose of involvement (What are you hoping to achieve through involvement/partnership working? Are there any limitations you need to take into consideration?)

Advise on overall conduct of the study, through membership of the project steering group committee.
Comments on research proposal- particularly the lay summary, data collection and impact summary

At what stage of your research would you like to work with experts by experience?

- Identifying and prioritising your research question
- Designing your study (developing study protocol and relevant documents)
- Preparing funding/ethical application
- Managing the research (as part of a steering group or advisory committee)
- Undertaking the research
- Disseminating the research
- Writing up
- Implementation/Evaluating impact
- Other (please specify):

How would you like to work with experts by experience in your project? (e.g. the tasks, meetings, and activities that people will be getting involved with, when, and how often)

Initial meeting to present and discuss project with members of SUCRG

What role will experts by experience have? *(for example, members of a project lived experience advisory group, a steering group or a consultative panel; service user researchers)*

Members of a project lived experience advisory group/ a steering group

Are you looking for people with specific characteristics or experience?

No

What will be the expected time commitment for experts by experience?

Following the initial consultation meeting, we would like the involvement of experts by experience as members of the project steering group committee, which is anticipated to meet quarterly. The meetings format will be a mixture and virtual and face-to-face.

What is the deadline or timeline for the request?

The fellowship application is anticipated to be submitted in June 2020 to the NIHR. Subsequent applications to other funding bodies may follow later in the year.

If successful, the project is envisaged to start in the spring/summer 2021.
